Professional Summary

Bachelor of Computer Applications graduate and aspiring Software Engineer with strong knowledge of Core Java, Advanced Java, Object-Oriented Programming (OOP), SQL, and Data Structures and Algorithms. Built an enterprise Healthcare ERP system comprising 20+ modules and 20,000+ lines of code using Java, JDBC, and SQL. Skilled in designing database-driven applications, implementing secure CRUD operations, and developing modular software solutions. Possess strong problem-solving, analytical thinking, communication, and adaptability skills. Currently expanding expertise in Spring Boot, Spring Framework, Hibernate, JSP, Servlets, and modern Java backend technologies.

Education

Karim City College, Sakchi

Bachelor of Computer Applications (BCA) — CGPA: 66.27%

Jamshedpur, Jharkhand

2022 – 2026

Experience

Java Developer Intern

Dec 2025 – Jan 2026

Agamy Eduventure

Remote

- Led end to end development of an enterprise Nursing Home Automation System using Java, JDBC, SQL, and Java Swing.
- Designed relational database schemas and implemented secure CRUD operations using JDBC API, DriverManager, PreparedStatement, Statement, and ResultSet.
- Built modules for patient management, laboratory diagnostics, ward and bed allocation, billing, inventory administration, and revenue analytics.
- Developed automated billing and payment systems supporting GST calculations, payment history tracking, and refund processing.
- Implemented authentication, exception handling, input validation, and defensive programming techniques to ensure application reliability and data integrity.
- Wrote and maintained 20,000+ lines of production-quality Java code across 20+ integrated modules while following modular programming and separation of concerns principles.

Projects

Nursing Home Automation & Management System | *Java, JDBC, SQL, Java Swing, AWT, MS Access, Git*

- Developed an enterprise Healthcare ERP application comprising 20+ modules and 20,000+ lines of object oriented Java code to automate nursing home operations.
- Built modules for patient management, laboratory diagnostics, bed allocation, billing, inventory administration, revenue analytics, and printable report generation.
- Designed relational databases and implemented CRUD operations using JDBC, PreparedStatement, Statement, and ResultSet.
- Engineered dynamic ward and bed allocation logic, automated GST billing, refund processing, and configurable administrative modules.
- Implemented administrator authentication, exception handling, and input validation to ensure application stability and data integrity.

Sargam – Multimedia Streaming Platform | *HTML, CSS, JavaScript, Bootstrap*

- Developed a Spotify inspired multimedia platform supporting music and video streaming, artist categorization, and custom playlist creation. Implemented dynamic media controls and playlist management using JavaScript and DOM manipulation.

BiteRush – Food Ordering Platform | *HTML, CSS, JavaScript, Bootstrap*

- Built a Zomato inspired food ordering platform supporting restaurant browsing, authentication, shopping cart, and order placement workflows.

Technical Skills

Programming Languages: Java, SQL, JavaScript, HTML5, CSS3

Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, File Handling, Generics, Java 8 Features, Streams API, Lambda Expressions

Advanced Java: JDBC API, DriverManager, PreparedStatement, Statement, ResultSet, CRUD Operations, Database Connectivity

Database Technologies: SQL, Relational Database Management Systems (RDBMS), Database Design, MS Access

GUI Development: Java Swing, AWT, Event Handling

Developer Tools: Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman

Core Computer Science: Data Structures and Algorithms, DBMS, Operating Systems, SDLC, Problem Solving, Debugging

Professional Skills: Communication Skills, Team Collaboration, Teamwork, Analytical Thinking, Adaptability, Quick Learning

Currently Learning: Spring Boot, Spring Framework, Hibernate ORM, JSP, Servlets, REST APIs, Maven, Microservices Fundamentals

Achievements

Ranked **#1 on GeeksforGeeks** among all students of Kolhan University.

Solved **150+ Data Structures and Algorithms** problems across LeetCode and GeeksforGeeks (50+ on LeetCode and 100+ on GeeksforGeeks).
